### 1. Purpose

The DGT Cube is a timer for (board) games with up to 6 players. The DGT Cube can provide a time limit for the complete game (for each player) or for each player's turn. This is shown on a separate display for each player.

By applying time limits, playtime becomes easier to control. Using the Cube provides an extra challenge in playing various games.

### Cube online

Visit [www.dgtcube.com](http://www.dgtcube.com) for game tips and discuss how to use the Cube in your favorite games.

### 2. Game options

1. Game timer: Count down time per player for the whole game.
2. Move timer: Count down time per player per turn.
3. Move timer + save: Count down time per player per turn. The remaining time (not used for that turn) is saved for the next turn.
4. Up count: Count up time per player. Set the game timer option to 0h 00m to activate.
5. Turn counter: Counts the number of turns/points per player. Set the move-timer option to 0m 00s to activate.

### 3. Use

#### Switch on & start

1. Press any ▶|| to switch the Cube on.
2. Each player chooses one side/color of the Cube.
3. Change settings on the red side (see changing settings) or use the current settings.
4. When ▶|| is flashing, the Cube is ready to start.
5. Turn the side of the starting player upward and press ▶|| to begin.

#### Changing turns

Change turns by rotating the side of the next player upwards. This stops your timing and the next players timing starts.

#### Stop the time

The time can be stopped by placing the Cube on its base or by pressing ▶||.

#### Pausing the Cube

Press ▶|| on two sides simultaneously to pause the Cube. Now the Cube can be rotated to take a look at all sides. Place the desired side upward and press ▶|| to resume the game.

#### Switch off

Press ▶|| on the upward side for 3 seconds to disable the Cube. Doing this will terminate the game.

### 4. Changing settings

You can only change the settings immediately after switching on the Cube. Use the buttons on the red side to do this. You can leave the menu with the current settings at any time by pressing ▶||. Press ▶|| again to start the game.

# DGT CUBE

## General settings

- 1. Choosing a game option:**  
Press **»»** and then **+** to change the blinking game option. To accept the option press **»»**.
- 2. Setting the time:**  
Change the blinking digit with **+**. Go to the next digit or accept the last digit with **»»**. The time will be set for all sides now. The maximum is 9 hours, 59 minutes
- 3. Sound:**  
Turn the sound on **♪** or off **♪** with **+**. With sound activated, , the Cube will alert the player by beeping when approaching the time limit.

## Individual time settings

It is possible to set a different time for one or multiple players. To do this browse with **»»** through the settings menu until **⏸** is flashing. Now you can change the time for each side independently.

1. Select the side you want to adjust by pressing **▷|||** on that side. This time will start flashing and also become visible on the red side.
2. Adjust the time on the red side and confirm by pressing **▷|||** on the modified side.
3. Repeat the above steps for all sides you want to change individually. Press **»»** on the red side to leave the settings menu.
  - 1.

When individual time settings are active **⏸** will be displayed on all sides of the Cube. Press **▷|||** on the side of the first player to start his/her time.

## Changing display contrast

Press and hold down **▷|||** on the yellow side while the red side is turned upwards. Now you can increase the contrast by pressing **+** or decrease the contrast using **»»** while holding the **▷|||** button on the yellow side.

## 5. Replacing the batteries

When **🔋** becomes visible on the red side you need to replace the Cube's batteries.

Detach the green side with a flat object and unscrew the battery lids.

Replace the two batteries. Take note of the proper battery orientation.

## 6. Warranty

DGT provides a warranty of 24 months on manufacturing and material defects of the Cube. When applying for warranty, contact your vendor directly. You need the warranty card and a proof of purchase to make a warranty claim. These warranty conditions only apply when the CUBE is used with care. Display fracture is excluded from the warranty obligation.

 Turn and move the Cube with care

 Prevent impact between the glass displays and other objects
